### Recommended School Supplies List for 2006-2007

LCS **will not** supply prepared packages of school supplies for the 2006-2007 school-year as we did last year. This decision resulted from extensive student and parent belief that individuals should purchase their own needs. Although each student will obviously have her or his own preferences on supplies, the below lists are provided as a recommendation/suggestion, by grades listed. Some of these items are available in Accra; some may be best purchased in other locations.
