13/Jan/2021

My hands help me feel

My hands protect me

My hands move

Ever so wonderful and magical

How very much I love my magical hands

They swing from bar to bar and wipe my tears

They make me win video games

oh how much I love my hand my magical hands

They clap after a great movie I love my hands

MY Wonderful Legs

Legs, legs

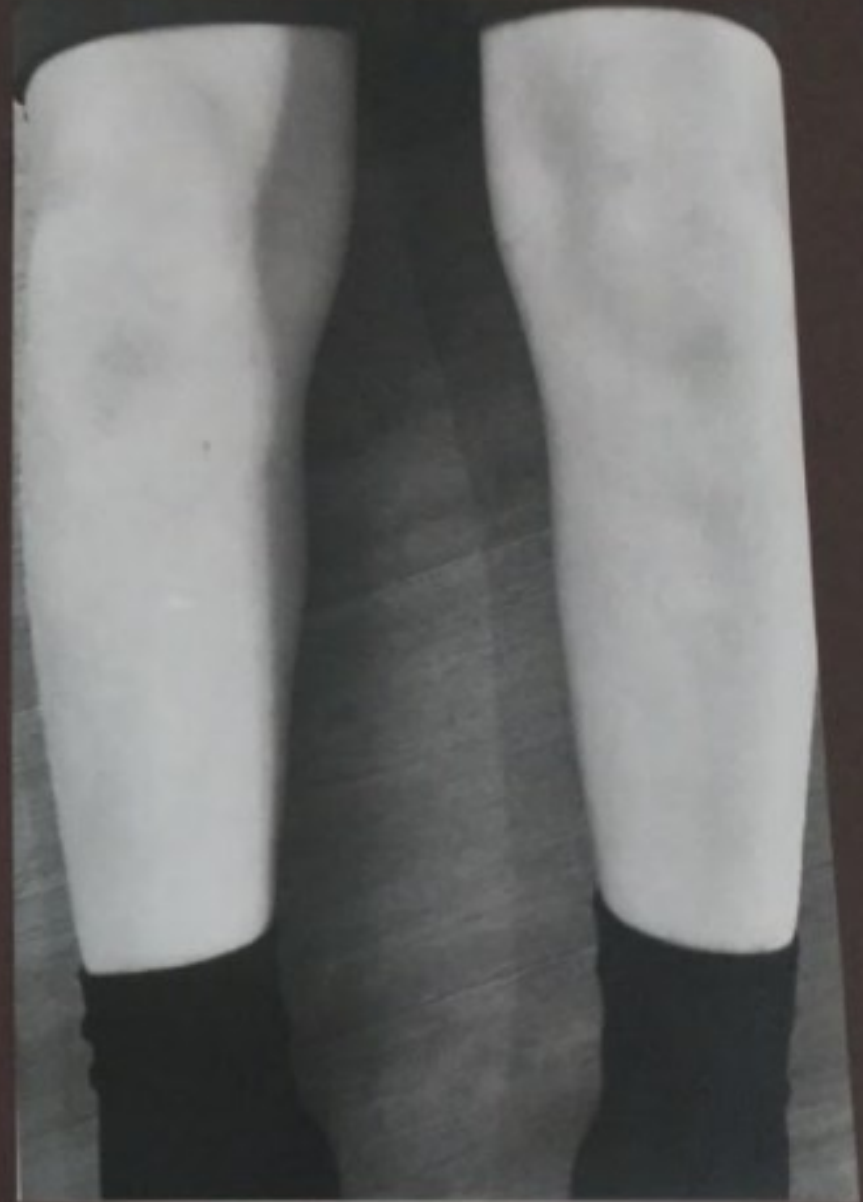

You help me up
When I am down You help me play
You help me run
You give me hope
When there is none

MY legs, my legs
they are fun
they make me laugh
When I am sad
They make me laugh
When I am mad

Legs, legs I love you so.

Hands

Hands.

They help me grab
They help me pull
They help me push
They help me write
And drag, but that's not all.

From pressing buttons
To opening books
To carrying heavy objects
To dribbling a basketball.

The veins in my body

Send blood coming through, to my hands

Clapping my hands to cheer

Smacking between the two amazing hands.

The sports I play

I use my hands to throw and hit

I wash them to keep them clean

So I take care of them.

So I don't infect other people
So they don't get sick
There is a pandemic
We have to be careful
With our hands.

I take care OF MY HANDS.

I love my legs

They help me move around

They carry me a long way so I could go out and play

My legs are so strong so im able to run very long

I can use my legs to fight when im in a tight situation

Legs are fast, long, or, short you can walk for days so you have a lot of time to play.

Everyone has gloriouse legs

You can exercise with your legs

Everyones legs can do anything

January.13.2022

My glorious Legs

TOES

My toes, are not covered by my clothes
They are short, soft and wiggly
Rooted like a tree to size 38 feet
I smell them with my nose
Oh i do love my toes

My toes all ten of them let me kick a ball
They make me stand tall to see it all
But the reason i love my toes is
They're very far from my nose
Oh i do love my toes

Hands!

Hands, Hands, you help me live!
You help me eat so I don't feel weak!
You help me when I fall
So I don't scrape my knees!

You help me learn
So I can be smart!

You let me play
And make new friends!

You help me communicate
When people don't understand!

You help me ask questions
When I really need to!

But sometimes you can
Be a little meano

You rarely hit people
When they are a little rudeo

But that's okay!

Hands, Hands

Oh I love

You so, thankfully

You'll never go

I love my Hands!

The human brain

By

14/1/22

Dear Brain
Now lets be honest
Without you
we wouldnt be here.

Our brain

~~is the~~

Makes us live

without ~~it~~ it

We wouldnt have buildings

Clothes or ~~or~~ even fresh drinking water

The human brain
makes humans smart

It helps us

think the things we do

Brain

if you weren't here

I wouldn't be here

Due to the fact that we wouldn't know how
to give birth to ~~babies~~ babies.

My Legs

These legs

These white, bald, powerful legs

They feel stronger than my arms, stronger than my head

You run with legs

You kick with legs

You jump with legs

You can even defend yourself with legs

Legs come in any colour and shape.

My hands

I love my hands, with my hands I can touch
I can grab

I can write

I can drive.

It would be hard to be alive if it wasn't for my
hands.

My hands feel so soft and have a tan look

without my hands I would not be able to flip the
pages of my favorite book.

My hands are filled with lots of veins

every which goes in lots of different ways.

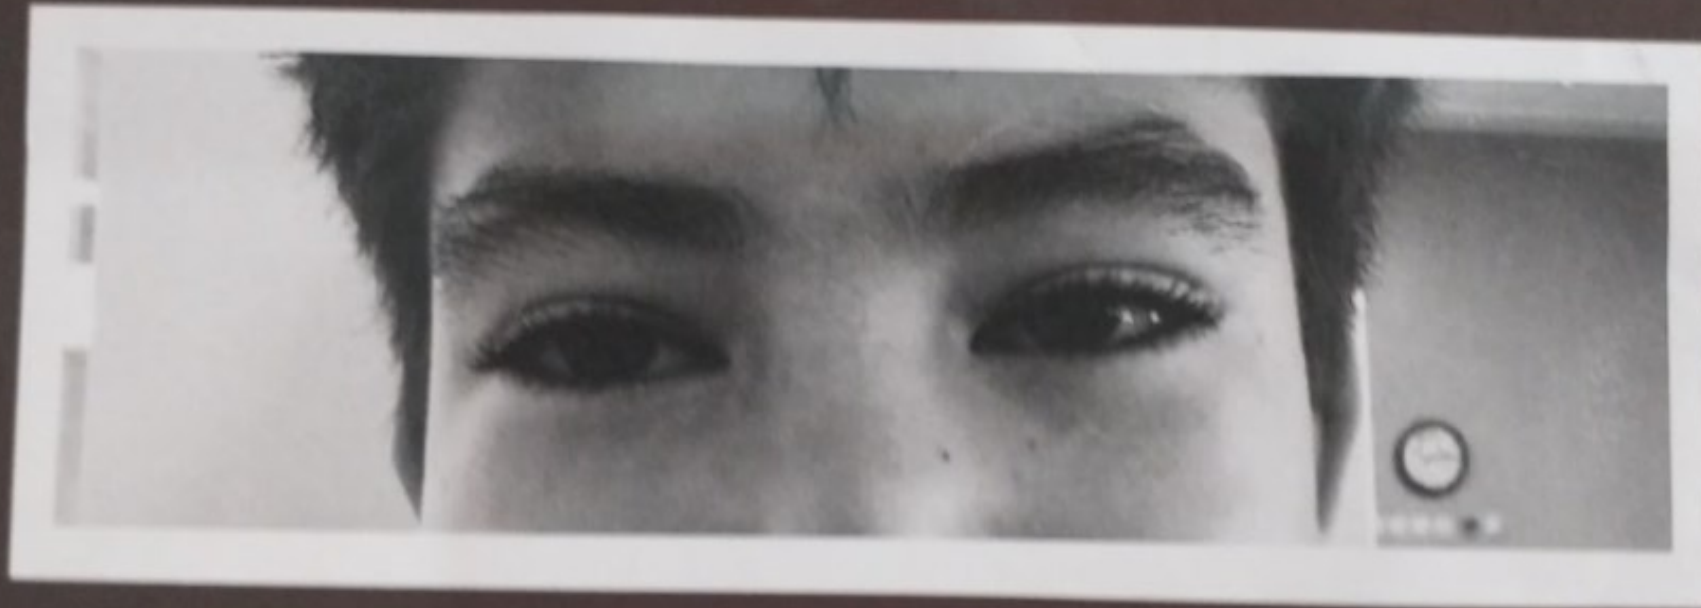

I like my hands because they have helped me so
much in my time

My hands have helped me climb, they can help
me squeeze lemons and limes.

I like my hands because they are very unique.

My special Eyes

My eyes are round and small
But with my eyes I can see
Many big objects and houses
Without my eyes, I
can't see other colors around me
My eyes can see extraordinary things,
Sences

1

2
Without my eyes I can't see my hands,
My legs and my face
When I close my eyes all my
Problems go away
When I close my eyes I can
rest from everything I did

3
In football I look left and right
I use my vision to look, to pass
the ball
to my teammates
Take one look

Great Arms

13/1/2022

My arms are great because
they help me with moving
my hands

They help me write an amazing story
read a very good book

feel something good

it also helps me play with toys
Play video games

Draw something cool

And fight against bad people
when they steal something from me

And help me eat delicious food
this is why

Arms are important to all!

My eyes

I like my eyes because they are common
Some people have purple or green eyes
I like my brown eyes because they shout joy-full
cheers and bring compliments to my ears
Some people say brown is the symbol of fate
Other say it's traditional
But other people ask what does brown eyes mean
to me I say brown is me

I look how my eyes gleam in the dark
My mom says my eyes is as bright as my heart
When I am angry my eyes shake like a blooming
dandy lion
When people say "Why don't you have blue eyes?"
I say with pride
"Brown is for me"

by

My hands

My hands let me touch
And feel
And play.

My hands are like
Little helpers that are a part of me.
My hands can help me

When I fall and they can help me do what I love.
My hands help me hold

And work

But

They are important because they
Help me live.

My hair is brown ^{JAN 14} ²⁰²¹ My Hair

i can put it up or down

i can put it in a braid

I take care of my hair every day

I Love my hair i think it will stay

I can cut it or keep it long

I Love my hair

I can put it in a bun

then it looks pretty when i am done

i brush it

i wash it

Some times it's messy sometimes

it's not i Love my hair whether or not!

My Hands

My hands are the things that help me do good
They feel the bark on a rough piece of wood
They turn the pages of my favourite book
They hold the printed picture I just took
They push, they pull, they grab and they
poke

They help me give my white, fluffy dog a nice
stroke

My hands are the things that help me do
good

-By

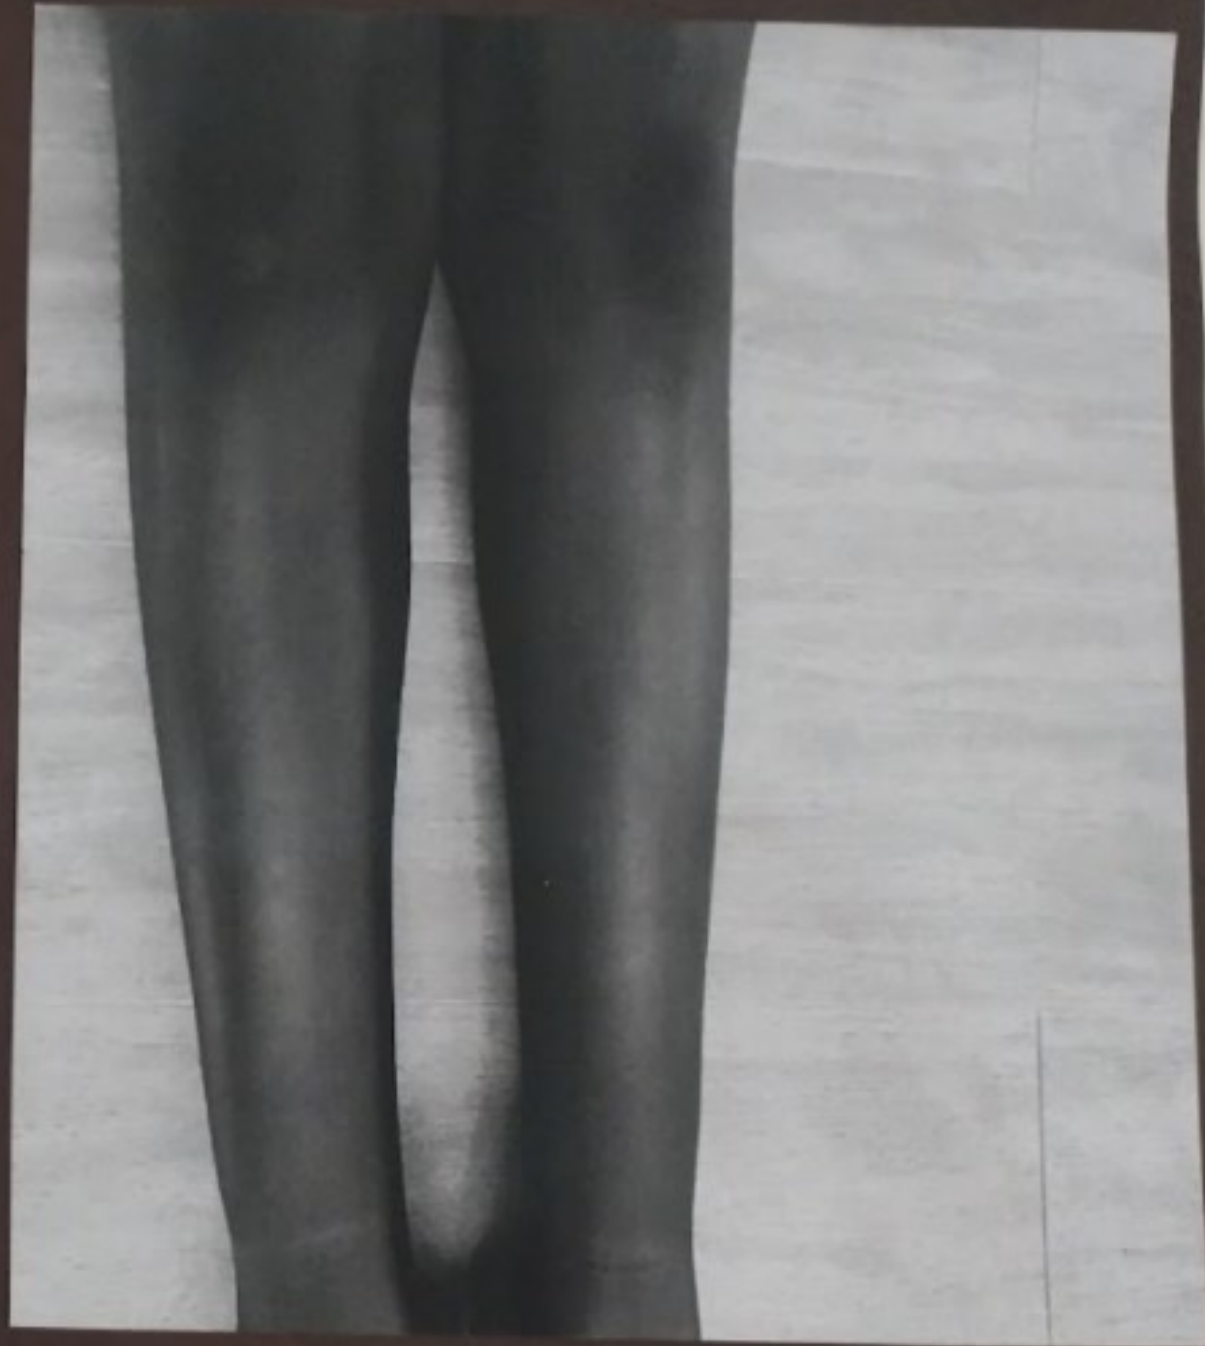

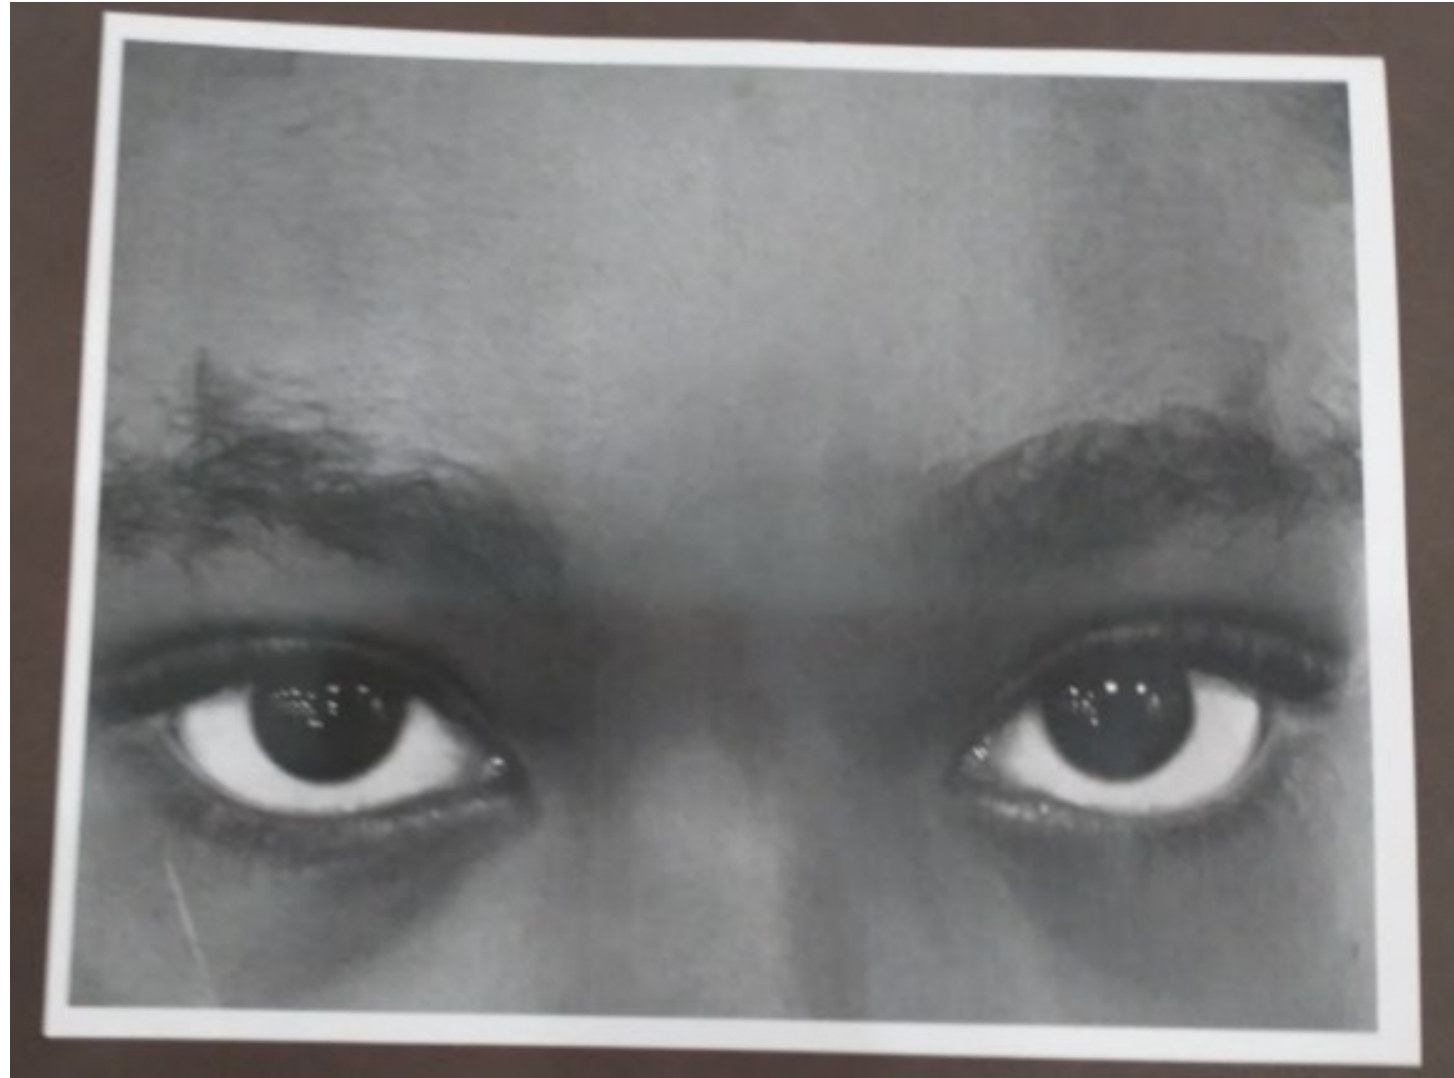

My Legs

My legs are long and strong
They help me run, walk and dance
They help me take the ball
From my friends
When I am playing football and
dribble the ball
And my legs
Are as strong as a gorilla
And they help me kick the ball
Far and hard
And this is why I love my legs

My hair looks great like me.

My eyes are beautiful

Dodging obstacles may be tough.

They can help me to do anything I want to do.

My eyes are brown, big and round.

My helpful Hands

I like my hands

Because they can do things most body parts can't do

They can pick things

They can also throw things

Another thing I like about my hands is that

They can write as I am doing right now

Hands make me feel things

They make me feel cold and hot

Warm and lukewarm

They are like machines

But only on your body

Hands make and move things

They can grip on paper and do a lot of things

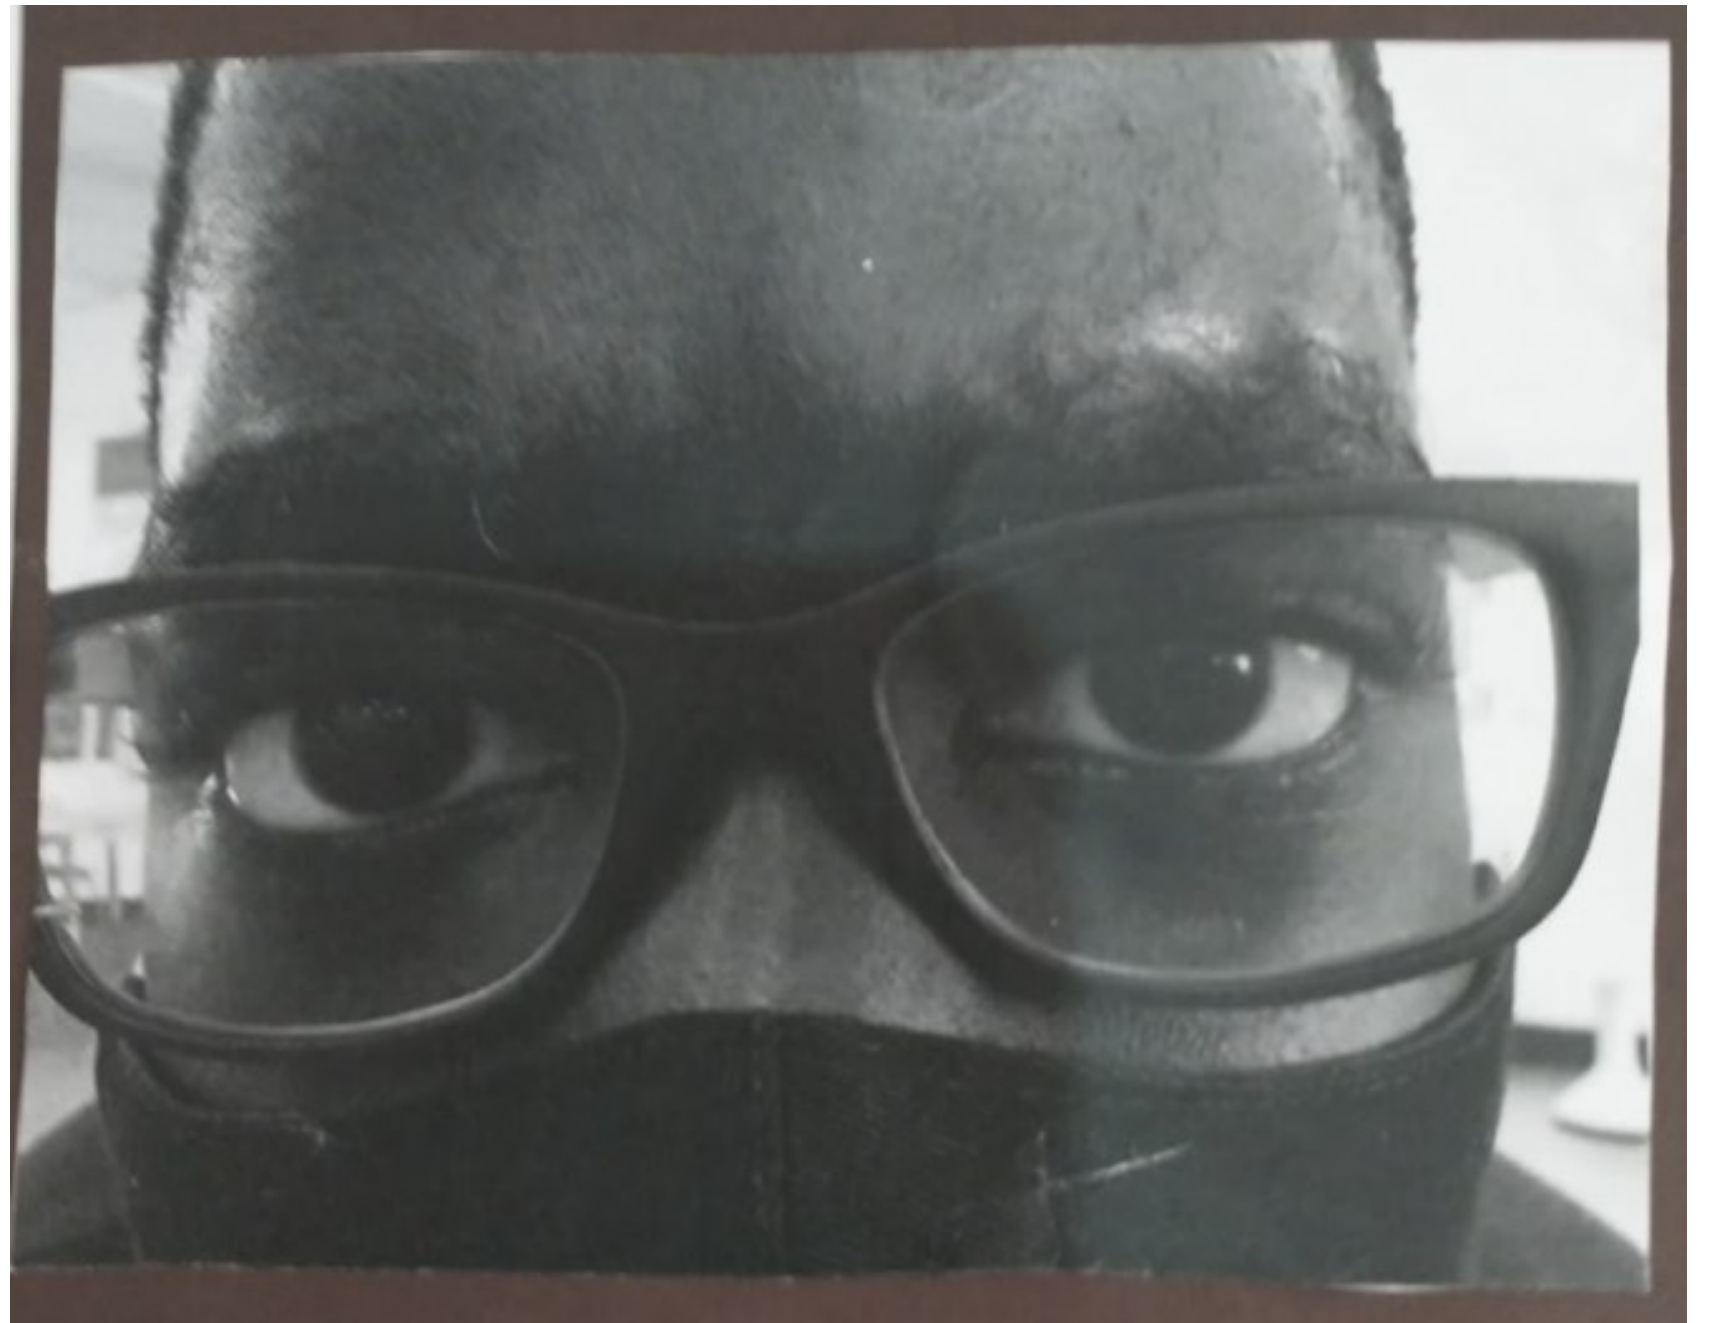

They can hold ~~things~~ on things and threaten someone

Hands can make signs and they can put things together
And they can remove things.

My Eyes

I love my eyes
They make me see
I think my eyes live in
The south and help me be free
I see the wonderful buildings
Reaching the sky and then
I see
The wonderful trees made of green
And makes me keep
I see my face all the way
until
I reach space
I love
My and will love them till
I die
I travel around and the structure
of their culture
I see the family that I love
I see
My friends helping me with my work
And I see
My mom and dad tucking me in bed

The Best Part of Me

Oh my mouth, you eat everything

Oh my mouth, you eat many things

You taste everything of what you eat

Sweet, spicy, sour, bitter and more

Oh my mouth, why do you have bright
red clothes on?

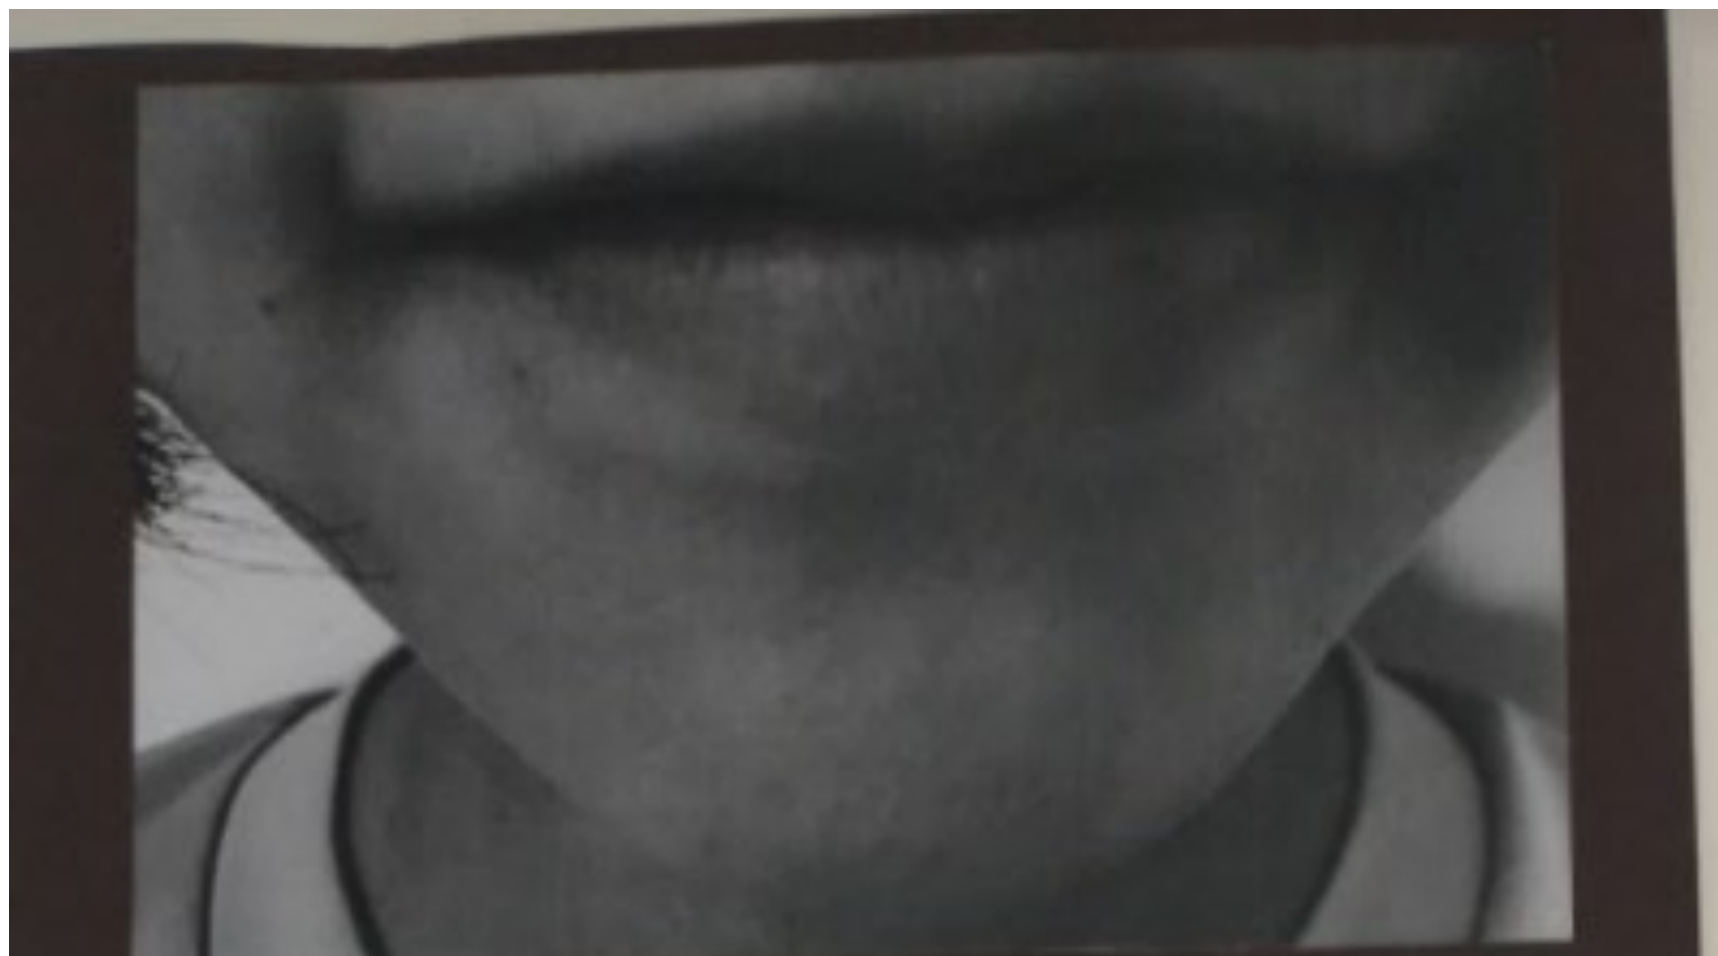

Oh my mouth, why do you have to
say many words?

When you open your clothes, you speak
everything just like a book

Oh my mouth, I love you the best!

My Hands

My hands can do anything.

The hands can help you reach anything.

With hands you can read your favourite book or eat your favourite food.

Throw the basketball and win the game.

Without hands you lose the ability to touch.

My hands are very very magical.

My hands can do anything.

MY HEAD

by [redacted]

My hair is as wavy as the ocean waves.

My hair is dark like dark chocolate.

My hair has blonde highlights like white chocolate.

And those chocolates together make the color of my skin.

My skin is all over my head.

My skin is like honey brown and milk chocolate together.

My skin will sometimes get cut, but it will heal itself like my ears.

My ears help me listen for when I need to focus.

My ears have earrings and they look as beautiful as my eyes.

My eyes are as dark as the night skies.

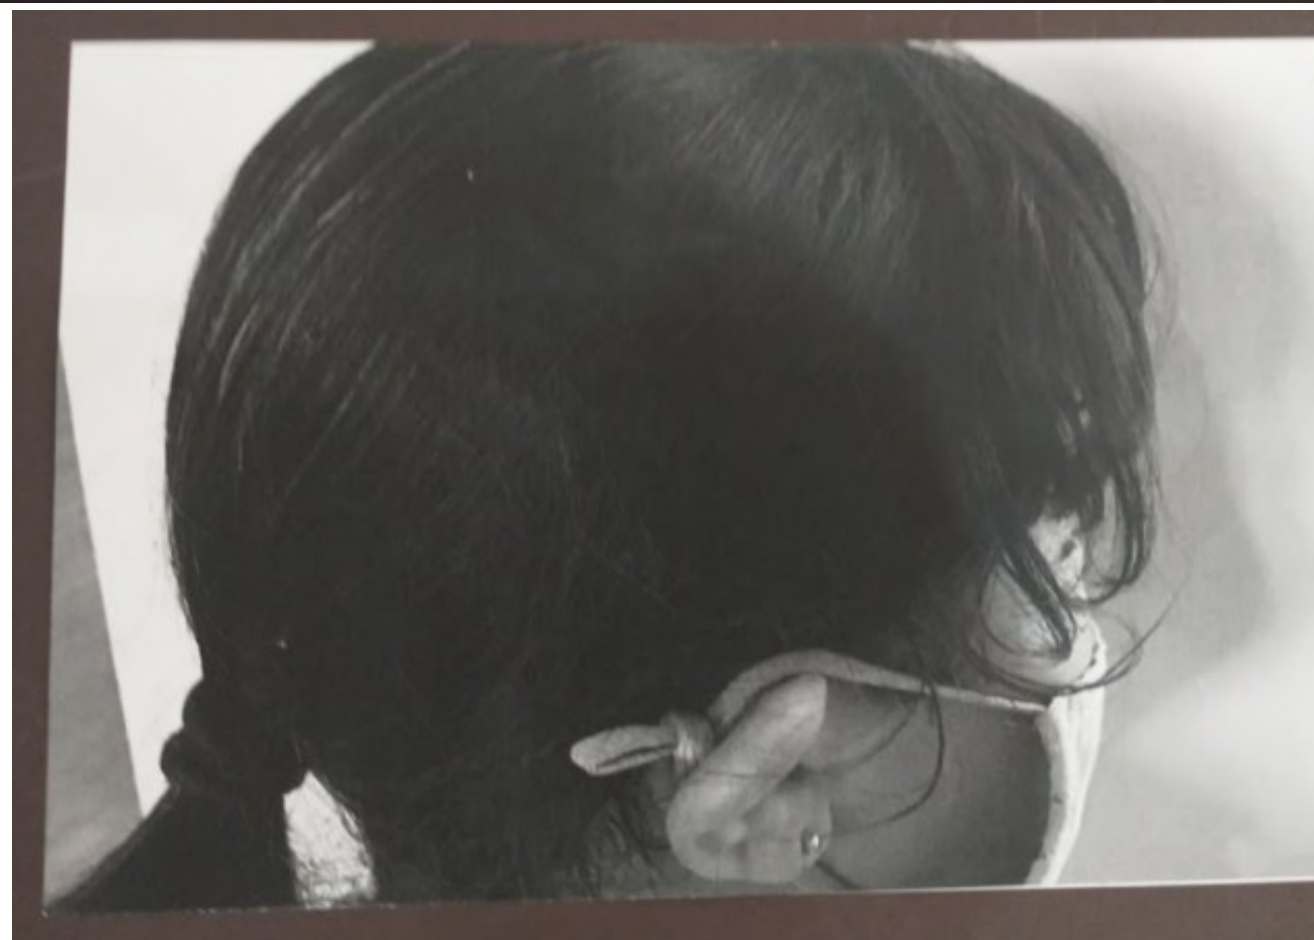

They sparkle when I look up at the stars.

They are as beautiful and big as my lips.

My lips are big and beautiful like my heart.

My lips are always beautiful with or without lipstick.

These are the things on my head.

I Love my Hair

14.1.2022

I love my hair
It's color is rare
I change it's style to match my mood.
To me it shines like the morning sun

I love my hair
It's color is rare
When I brush my hair it's like I brush
brown waves
I love my hair to me it's number one!

My Hands

I love my hands, they pull, they hug.

Sometimes warm.

Sometimes cold.

I use my hands to eat.

I use my hands to play.

I use my hands to brush my teeth.

As my hands feel the soft blanket
on my bed and cover my head.

My Eyes

My eyes see the world,
The hated and the loved.
They search the skies for bats,
Scanning the above.
They can hide when I'm sad,
Trying to cover up the leaks,
But sometimes they can't stop it,
And the tears run down my cheeks.
I've heard my eyes are pretty
That dark brown looks nice too,
But I've got so many friends,
Who's eyes are green, hazel and blue.
My eyes cannot see well,
To me the world is blurred,
They struggle to see faraway things,
Like leaves, people, and flying birds.
So I got my eyes tested,
And I chose my first pair,
My glasses might look a little weird,
But I can see, so why would I care?
